

User Guide: Configure Exchange on Thunderbird for OS X (IMAP)

1. Open **Thunderbird**

2. Set **Thunderbird** as the **default** mail client

3. On the **Welcome Screen** click on **Skip this and use my existing email**

Would you like a new email address?

In partnership with several providers, Thunderbird can offer you a new email account. Just fill in your first and last name, or any other words you'd like, in the fields above to get started.

 gandi.net

The search terms used are sent to Mozilla ([Privacy Policy](#)) and to 3rd party email providers gandi.net ([Privacy Policy](#), [Terms of Service](#)) to find available email addresses.

4. Enter **Your name** at Your name:
5. Enter your macid@mcmaster.ca at Email address.
6. Enter your **MAC ID password** at Password.
7. Click on **Continue**

Your name: Your name, as shown to others

Email address:

Password:
